List of Hot Spots from Exterior Survey Field Sheet.docx

Hi Will,

Attached is a list of exterior hotspots that teams found during the assessments. I am still waiting for some RAT maps but these hot spots are based on observations in the field from the RAT Maps as they were assessed with the buggies and hand held meters. I will look over everything again on Monday morning and let you know if there are any changes or additions. Please let me know if you have any questions and have a good weekend.

Regards,

Craig Tiballi
